

TOOLBOXES

The latest line of Auto Crane drawer units is manufactured exclusively for our Titan™ series crane service body.

FEATURES: Durable, chip-resistant, powder-coat finish | Unique one-hand, two-point latching system (on drawers 22" wide and greater) | Heavy-duty drawer slides with capacity of 250 lbs. (limited lifetime warranty) | A60 galvanealed steel construction for rust and corrosion resistance | Three drop-in dividers per drawer | Two all-purpose mounting brackets per unit

ROPE LIGHTING

These durable lights provide light throughout the entire compartment, minimizing the shadows inherent with traditional dome lights.

FEATURES: Allows greater visibility in each drawer of your toolbox | Robust design means less maintenance and longer light life

ROLL TOPS

The roll top secures your equipment and increases your fuel efficiency when traveling.

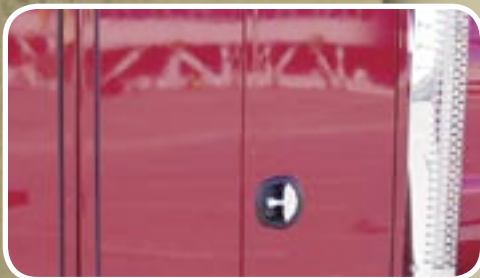

FEATURES: Design allows full access to bed | Electric motor retracts the bed at the flip of a switch | Release lever offers manual operation option | Electromagnetic brake locks the cover in any position | Aerodynamic design increases fuel efficiency

OUTRIGGERS

Auto Crane outriggers are specifically designed to provide maximum stability, insuring the safest operation possible.

FEATURES: Manual to fully hydraulic available | Diverter valve located with outrigger controls | Fully protected cylinder rods

SADDLES

When you need more storage space, the Titan saddles deliver, providing up to 85.5 cubic feet more compartment capacity.

FEATURES: Available in transverse, standard side-pack or welder deck configurations | Design includes drip rail and forms smoothly with standard Titan crane body

WORKBENCH BUMPERS

Strength, innovation, safety—the benchmarks of every Auto Crane workbench bumper.

FEATURES: 20", 24", and 30" deep | Integrated step for easy access to bed | Full-length storage compartments available
